Interleaving work

06-01-21

A.

1. $52 = 50 + \square$

2. $67 = \square + \underline{7}$

3. $275 = 200 + \square + 5$

A.

1. $52 = 50 + 2$

2. $\underline{67} = 60 + 7$

3. $275 = 200 + 70 + 5$

B.

1. $4 + 2 = 6$

$40 + 20 = 60$

$400 + 200 = 600$

2. $8 + 4 = 12$

$80 + 40 = 120$

$800 + 400 = 1200$

C.

What is the value of the underlined digit in each number?

256

1965

56

13901

200

900

6

3000

D.

Use column addition to calculate the following:

1) $345 + 243 = 588$

2) $456 + 342 = 798$

3) $123 + 268 = 391$

4) $545 + 349 = 894$

5) $656 + 442 = 1098$
